

## De-registration of the e-box in the event of death and creating access to the deceased's e-Box

This form must be used for all inquiries to e-Box in connection with a death.

Upon the request of a surviving relative, all senders' registrations are deleted in the deceased's e-box, so that no further documents are delivered to the deceased's e-Box.

In addition, electronic access to the deceased's e-Box can be created from a surviving relative's own e-Box or, optionally, from a proxy holder's e-Box.

The form should be sent to e-Box together with a copy of the death certificate or probate and any power of attorney as described below.
